IN RE: Potomac River Crossing Study (Countywide)

Chair Randall moved that the Board of Supervisors direct that all efforts related to the on-going study and development of future policy guidance regarding a future Potomac River Crossing be suspended until such time as the State of Maryland, and affected localities, can affirm support for a crossing and a location for a crossing. At such as time as that information is available, staff will bring the matter to a future Board of Supervisors for further direction.

Seconded by Supervisor Volpe.

Supervisor Meyer moved a Substitute Motion that the Board of Supervisors direct staff to incorporate the substantive findings of the Final Report on Identification of Potential Locations of Potomac River Crossing dated August 21, 2018, into the Draft Countywide Transportation Plan update with policy direction committing to the County's on-going study of a future Potomac River Crossing.

Supervisor Meyer further moved that the Board of Supervisors recognize Corridors D and E, as identified in the attached Final Report and including the area between Corridors D and E, as the preferred location for a future crossing and that all policy references include a statement that this alignment will take every measure to avoid the removal of any existing residential dwellings.

Supervisor Meyer further moved that the Board of Supervisors direct staff to develop a plan for regional coordination and collaboration with local, state, and federal jurisdictions to advance the concept of developing a future Potomac River Crossing and report back to Board of Supervisors with scheduled updates.

Seconded by Supervisor Letourneau.

Chair Randall ruled the Substitute Motion out of order.
